

2020 Youth Civic Engagement Grant Notice of Funding Availability and Application Instructions

Applications Due Monday, September 16, 2019 @ 3:00 p.m. CDT

Volunteer Tennessee announces the availability of Commission Support Grant funds to award as Youth Civic Engagement Grants. Commission Support Grant funds are to support the operations of state commissions in implementing their duties as required by the National and Community Service Act of 1990, as amended and the Edward M. Kennedy Serve America Act. Volunteer Tennessee seeks applications from organizations that will use service-learning to carry out these responsibilities in local communities in Tennessee. Youth Civic Engagement Grants are designed to involve young people between the **ages of five and seventeen** in service-learning projects that simultaneously support student development and meet community needs in areas such as the environment, education, healthy futures, disaster services, and other unmet needs. Volunteer Tennessee encourages a local partnership model, which could include one or more Local Education Agencies and one or more community partners.

Award amounts. Applicants may apply for a minimum of **\$5,000** and a maximum of **\$40,000**. Typical awards are between \$5,000 and \$10,000. A **50% match (non-federal)** – cash or in-kind – of the total budget is required for Youth Civic Engagement funding. For example, an applicant requesting \$5,000 in federal funds through this application must document at least \$5,000 in matching funds, which is 50% of the program total cost of \$10,000. Any unobligated funds may be made available to applicants for supplemental funding.

Project period. The project period is one year: January 1 – December 31, 2020. Continuation funding for subsequent years is not guaranteed and is dependent upon availability of funding and satisfactory performance.

Eligible applicants. Non-profit organizations, public and private schools, institutions of higher education, and local governments are eligible to apply. Applicants must be registered within the State of Tennessee. Successful applicants will have demonstrated expertise in meeting educational needs of youth. In addition, the organization must have been in existence for at least one year before applying for a grant.

Application and technical assistance webinar. Volunteer Tennessee will offer a webinar to introduce potential applicants to Volunteer Tennessee and to go into detail about the Notice on **Thursday, August 29 at 1:00 p.m. CDT**. Please visit our website www.volunteertennessee.net for more details about the webinar and to access a recording following the webinar. Volunteer Tennessee strongly encourages new and re-competing applicants to attend the webinar.

II. Program Narrative [Maximum 10 pages – single spaced] – see page 6 below for funding criteria for the program narrative

A. Program Design

School and community-based service-learning programs encourage youth to learn and develop through active participation in thoughtfully organized service projects, which are conducted in, and meet the needs of, the community. Service-learning fosters civic responsibility, analytical and job skills, teamwork, and self-esteem. It includes educational components about issues being addressed and the community in which the service experience is taking place, and provides structured time for the participants to reflect on their service experience, thus promoting self and community awareness. School and community-based programs that institutionalize service-learning as a regular part of their programming will discover its power to engage youth in addressing a variety of community needs.

1) Compelling Community Need(s).

- Describe the compelling community need(s) that you will address within the target community. Service-Learning is a means of meeting a community need (e.g. hunger, homelessness, etc.), so do not describe the absence of a particular service or activity as your community need. Provide citations that document the need.
- Why did you select this need as your focus?
- **If your program will operate at multiple sites**, demonstrate a need in each community you propose to serve.

2) Description of Activities

After selecting one or more priority areas below, describe your proposed activities for each priority and how these activities will meet the community need. The narrative should include a clear commitment to using the service-learning model (see Appendix 3) to involve young people between the ages of five and seventeen. Describe how your agency can provide or secure effective technical assistance to implement the proposed activities. In addition:

- Explain how the proposed program will use service-learning as an integral part of activities to meet the identified need (as appropriate, cite research-based evidence that supports the proposed program model).
- Explain how program staff will be prepared and supported to facilitate the service-learning cycle (investigation, preparation, action, reflection, demonstration) with participants, and how it will incorporate youth voice.
- Describe how the service-learning activities will meet the Service-Learning Standards for Quality Practice (see Appendix 3).

You must address at least one priority area below.

Specific program priority areas include:

- i. **First Lady Maria Lee's Tennessee Kids Serve Summer Challenge.** Volunteer Tennessee will fund programs that utilize service-learning to recruit, enroll, and support K-6 students as part of First Lady Maria Lee's Tennessee Kids Serve Summer Challenge (<https://www.tn.gov/firstlady/tennessee-serves/tennessee-kids-serve-summer-challenge.html>) for the summer of 2020.
- ii. **Civic Engagement.** Volunteer Tennessee will fund school- and community-based programs that use evidence-based or evidence-informed service-learning curricula that engage youth in civic activities. Applicants should consider partnering with local AmeriCorps programs on civic engagement service-learning activities. See Appendix 2 for AmeriCorps program listings.

3) Measurable Outputs and Outcomes

Successful applicants must address at least one of the program priority areas above and must include performance measures that identify a need and anticipated output and outcome measures. Refer to attachment 4 for the performance measure worksheet.

- Based on your selected priority area(s), briefly describe the measurable outputs and outcomes that will achieve your priority area(s) and how service-learning will be used to meet these outcomes.
- Describe the systems and tools that you will use to track outputs and outcomes.

B. Organizational Capacity

Strong administrative and financial systems are needed to provide the detailed documentation required for federal grant accounting. Some smaller agencies find that new internal control systems, including more detailed staff timekeeping, are needed to meet stringent accountability requirements. New grant recipients may be required to attend financial management training.

Grant recipients will participate in at least one statewide grantee meeting hosted by Volunteer Tennessee.

In this section of the grant application, please describe how your agency will address the “Organizational Capacity” criteria on page 6 below.

C. Budget/Cost Effectiveness

Briefly discuss how the proposed budget will address the “Budget/Cost Effectiveness” criteria on page 6. Please note the source and amount of all matching funds and the agency’s plan to acquire additional funding as needed.

III. Budget Form with Detail

Please use the attached Youth Civic Engagement Budget Form with Detail (Excel format) required by the State of Tennessee. Please see pages 9-12 for the budget instructions and an example. Note that some items require detailed descriptions. Funding may be used for staff, travel, materials, supplies, related space and other direct costs. The Budget detail should show how each line item cost was derived and specifically for what it is allocated.

Applicants may apply for a minimum of **\$5,000** up to a maximum of **\$40,000** to support priority areas i and/or ii for the period January 1, December 31, 2020. A **50% match (non-federal)** – cash or in-kind – of the total budget is required. For example, an applicant requesting \$5,000 in federal funds through this application must provide \$5,000 in matching funds, which is 50% of the program total cost of \$10,000 (\$5,000 federal + \$5,000 match). Please describe the source of all matching funds.

IV. Performance Measure Worksheet

Successful applicants must address at least one of the program priority areas in section II above and **must submit at least one completed Performance Measure Worksheet that identifies a need, inputs, intervention, anticipated outputs and outcomes, and tracking tools** that correspond to the selected priority area(s). Refer to attachment 4 for the Performance Measure Worksheet and Appendix 4 for instructions on Performance Measures. In particular, applicants should consider using performance measure pairs ED1 with ED5, ED7, ED10, ED11, ED26 and/or ED27. If your application proposes more than one performance measure, please complete a separate Performance Measure Worksheet for each one. You may use applicant-determined performance measures that are consistent with the format in the performance measure worksheet.

V. Assurances and Certifications (“Assurances and Certifications” form)

Please read carefully the enclosed Assurances and Certifications (attachment 5). This will be included in your final contract as part of the commitment. **Please note: This form must signed by an authorized official from your agency who has legal authority to make the assurances and certifications.**

VI. Completed Financial Management Survey

Your financial officer or other qualified staff must complete and sign the Financial Management Survey (attachment 6). Please be sure to include all attachments requested in the Survey.

The mission of Volunteer Tennessee is to encourage volunteerism and community service.

VII. Most Recent Audit

Please submit an electronic copy of the agency's **most recent audit**. This information will be used to assess organizational capacity and cost effectiveness of the program proposed. If an electronic copy is not available, you must submit a hard copy to the address below by the application due date of September 16, 2019.
